## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-36, 41, 42, and 45-113, are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The above claims lack definite structural element and method steps for producing a final product or process of communication between the musical instrument and mobile telephone.

Also there are indefinite claims (eg. Claim 19) that use the word “can”, wherein the element can provide a function. The term “can” is indefinite. Either the element does perform the function or it should not be recited as performing a function for defining the instrument.

3. Claims 1-36, 41, 42, and 45-92, are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential elements, such omission amounting to a gap between the elements. See MPEP § 2172.01. The omitted elements are: the elements needed to process the communication between the mobile telephone and musical instrument, wherein there lacks the ability to make and use the invention.

4. Claims 93-113 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted steps are: the steps need to combine elements to provide communication between the mobile telephone and the musical instrument, wherein steps lack for making or teaching how to make the invention.

***Allowable Subject Matter***

5. Claims 37-40 are allowed.
6. Claims 1-36, 41, 42, and 45-113 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

***Response to Arguments***

7. Applicant's arguments, see remarks, filed 12/15/2005, with respect to the rejection(s) of claim(s) 1-113, have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of 35 USC 112.

As can be seen by the allowance of claims 37-40, the examiner believes that there is allowable subject matter. However, in the attempt to broadly claim the invention, the claims fail to define the invention in a way to make and use the invention, wherein there lacks structural elements and method steps. The claims involve the combination of an

electronic instrument coupled with a mobile telephone. The claims are not defined in a manner to provide a definite product or process. Claims 37-40 define the invention in more of a manner that one can make and use the invention. If the remaining rejected claims can be written in a manner that clearly defines the invention, somewhat in the manner recited in claims 37-40, the application can be allowed.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marlon T. Fletcher whose telephone number is 571-272-2063. The examiner can normally be reached on M-w, F.
